"Hoarding Clean Up: Addressing 5 Major Issues When Helping Those With Hoarding Behaviors"

Jeffrey Cohn is 52 years of age and lives in Baltimore, Maryland. He graduated from the University of Maryland with a BA in Sociology. Jeffrey Cohn started SI Restoration in 1989, a cleanup company that services homes or businesses after floods or fire damage, mold and mildew problems, or crime scenes. But over the years his company saw a demand for cleanups related to persons who hoarded increase and from there he developed, with Josh Rafter, Address Our Mess, a company specializing in hoarding clean up or, as he prefers to call it, "creating safe and healthy home environments." Mr. Cohn is certified to teach restoration processes in the state of Maryland and is IICRC certified in all aspects of restoration and home cleaning.

by Jennifer Kennedy, Psy.D.

Our last quarterly presentation took place on the night of Monday, December 14th. For this quarterly presentation, we did something that we haven't done for a very, very long time- we offered a panel of OCD experts to respond to any questions regarding this disorder that both lay persons and mental health professionals could come up with. We had many hands go up, and the questions, which covered a wide variety of topics, were non-stop throughout the meeting. We had the largest turnout for this meeting than we have seen in a long time, and so we will probably repeat this event again at sometime in the not too distant future.

“ Dr. Weg has produced a **masterpiece** that shows clinicians innovative ways to teach patients and their family members about the complexities of OCD. I **highly recommend** this book. It is entertaining and teaches a very useful way of communicating the difficult and often very frightening aspects of OCD symptoms and treatment. ”
